Analysis of Q2 Results

Q2 EPS of \$.09 beat our estimate of \$.07 due to an FX gain of \$.02. Total sales declined 4.5% YOY to \$39 million vs. our estimate of \$42 million. Sales for the EDG and Canvys units declined 2.2% and 9.8% respectively. The company generated \$.6 million in operating cash flow for the quarter. The company continues to execute in working capital and cost management. The company has \$177 million (\$10.27/share) in cash and investments with negligible debt. The company repurchased .3 million shares during the quarter for \$4.2 million. The company has \$29.4 million remaining under its stock repurchase authorization program in addition to continuing its new dividend trend of \$.05/share. The company continues to actively pursue bolt-on acquisitions. Outlook

The company is guiding for Q3 revenue of \$40-\$42 million and FY12 revenue of \$165-\$170 million. The company believes an operating margin of 5% is achievable by fiscal year end. Our FY13 estimates assume moderate growth in the EDG business based on redeployment of resources to faster growing verticals. The crisis in Europe is the primary risk factor going forward. The replacement cycle nature of the company's business model provides some downside buffer. We expect cost improvements to continue resulting in improved leverage based on the company's historical execution in this regard. The likely probability of continued share repurchases should also preserve EPS. We are forecasting revenue growth of 5% for FY13 and EPS of \$.38.
